Sonargaon University

Preface

In the modern business world, practical knowledge is an importance as theoretical learning. Only book-based knowledge is not sufficient to cope with the dynamic and competitive business environment. Therefore, an effective combination of theoretical knowledge and practical experience is essential for achieving success. Considering this, the internship program has been included as a compulsory part of the Bachelor of Business Administration (BBA) degree under the Department of Business Administration, Sonargaon University.

I have selected LEMON HIVE Company as my field of internship, which was conducted over a period of three months. During this period, I have gathered practical knowledge about the Human Resource Management practices of the organization. I have tried my best to collect relevant and significant data and prepare this report with utmost sincerity and effort.

Despite my best efforts, there may be some unintentional errors or shortcomings in this report, for which I sincerely apologize. However, if this report contributes even a little to any student, teacher, researcher or analyst. I will consider my effort successful.

Acknowledgment

In every stage of life, there are some people whose support, guidance and inspiration make our journey easier and more meaningful. In completing this internship report, I am deeply indebted to those individuals who have contributed their valuable time and effort. At first, I would like to express my sincere gratitude to Almighty Allah for giving me the strength, patience and opportunity to successfully complete this report within the scheduled time. It is a great pleasure for me to prepare the internship report titled "Human Resource Management practices of lemon hive company." I would like to express my heartfelt gratitude to my respected supervisor, Natasha Shikder, Lecturer, Department of Business Administration. Sonargaon University, for her continuous guidance, valuable suggestions and encouragement throughout the preparation of this report. Without her support, it would have been very difficult for me to complete this work properly. I am also highly grateful to the officials and employees of lemon hive company for giving me the opportunity to complete my internship in their organization. Their cooperation, support and valuable insights regarding Human Resource Management practices have greatly helped me in preparing this report.

Finally, I would like to thank all those individuals who have directly or indirectly contributed to the successful completion of this internship report through their support, encouragement and cooperation.

Introduction

AnyScanner

1.1 Introduction

Lemon Hive is a dynamic software development and digital solutions company dedicated to helping businesses grow through innovative technology and creative digital services. The company specializes in website development, mobile application development, custom software solutions, UI/UX design, and digital transformation services. With a commitment to quality, innovation, and customer satisfaction, Lemon Hive delivers tailored solutions that meet the unique needs of clients across various industries.

In today's competitive business environment, organizations increasingly rely on technology to improve efficiency, enhance customer experiences, and achieve sustainable growth. Lemon Hive plays a significant role in supporting businesses by providing modern, scalable, and user-friendly digital products. Through its team of skilled developers, designers, and technology professionals, the company focuses on transforming ideas into practical and impactful solutions.

The Human Resource (HR) department at Lemon Hive is responsible for recruiting, developing, and retaining skilled professionals who contribute to the company's software development, web engineering, and digital solutions services.

According to recent job postings, the HR activities of Lemon Hive are led by Ir Tamim, who has been involved in hiring for positions such as Product Manager, Software Quality Assurance Engineer, Full Stack Engineer, and Sales Development Intern.

Lemon Hive operates from offices in London, Oxford, and Dhaka, with a team of more than 30 specialists working in software development, web development, mobile app development, and digital engineering.

1.2 Statement of the Problem

The main topic is the HR practices conduct or follow in The Lemon Hive. In today's highly competitive digital business environment, organizations require innovative web, software, and application development solutions to maintain operational efficiency and achieve sustainable growth. However, many businesses face challenges such as outdated digital systems, inefficient workflows, limited online presence, and difficulties in adopting modern technologies. These issues can negatively impact productivity, customer engagement, and overall business performance.

As a technology-driven company, Lemonhive works to address these challenges by providing customized software solutions, web development services, and digital transformation support. During the internship period, it was observed that clients often require scalable, user-friendly, and cost-effective technological solutions to meet their business objectives. Understanding client requirements, implementing efficient development processes, and ensuring high-quality project delivery are essential for overcoming these challenges.

AnyScanner

Therefore, the main problem addressed in this internship is identifying how Lemonhive utilizes modern engineering practices, software development methodologies, and innovative technologies to solve clients' business problems while maintaining quality, efficiency, and customer satisfaction. The internship provided practical exposure to these processes and helped bridge the gap between academic knowledge and real-world industry practices.

1.3 Objectives of the report

The primary objective of this report is to present the practical knowledge and professional experience gained during the internship period at Lemonhive. The report aims to bridge the gap between theoretical concepts learned in academic studies and their real-world application in a professional working environment.

The specific objectives of the report are:

1. To gain practical experience and understanding of the software development and digital solutions industry.
2. To observe and analyze the organizational structure, work culture, and operational activities of Lemonhive.
3. To understand the processes involved in website, mobile application, and software development projects.
4. To apply academic knowledge and technical skills in real-life projects and tasks.
5. To evaluate the learning outcomes, challenges, and achievements experienced during the internship period.
6. To enhance professional skills such as communication, teamwork, problem-solving, and time management.
7. To provide recommendations based on the internship experience for future improvement and organizational development.

This report serves as a comprehensive summary of the knowledge, skills, and professional competencies acquired during the internship at Lemonhive.

1.4 Sope of the study:

Scope of this study is to examine the organizational activities, operational processes, and technological services of Lemon Hive, with particular focus on its website, mobile application, and software development operations. The study covers the company's organizational structure, working environment, development methodologies, and the technologies used in delivering digital solutions to clients. It also explores Lemon Hive's expertise in headless website development, custom software development, mobile application development, and digital system architecture. Furthermore, the study analyzes the practical knowledge and professional skills gained during the internship period, including exposure to software development processes, project management practices, teamwork, and client-oriented services. The findings of this study are limited to the experiences, observations, and activities conducted within Lemon Hive during

AnyScanner

the internship period and aim to provide a comprehensive understanding of how a modern software development company operates in a competitive digital environment.

1.5 Limitations of the Study:

The study was conducted based on the internship experience at Lemonhive and therefore has several limitations. First, the internship period was relatively short, which restricted the opportunity to gain in-depth knowledge of all organizational activities and operational processes. Second, access to confidential company information, such as financial records, strategic plans, and client data, was limited due to privacy and security policies. Third, the findings are primarily based on observations, discussions with employees, and available company documents, which may not fully represent the overall performance of the organization. Additionally, time constraints and workload during the internship limited the scope of data collection and analysis. Finally, the study focuses only on Lemonhive, so the findings and conclusions may not be applicable to other organizations operating in the same industry.

These limitations should be considered when interpreting the results and recommendations presented in the report.

1.6 Methodology

The methodology of this study is based on practical experience gained during the internship period at Lemonhive. Both primary and secondary sources of data were used to collect relevant information and prepare the report.

Sources Primary Data:

Primary data were collected through direct observation of workplace activities, participation in daily tasks and projects, discussions with supervisors and colleagues, and practical experience gained during the internship period. Regular interactions with team members provided valuable insights into the company's operations, workflow, and organizational culture.

Secondary Data Sources:

Secondary data were gathered from the company's official website, organizational documents, reports, brochures, training materials, and other relevant online resources. Academic journals, books, and articles related to digital marketing, software development, and business operations were also consulted to support the study.

1.6.1 Data Collected Technique:

The data collection technique used in the Lemon Hive internship report mainly involved both primary and secondary sources. Primary data were collected through direct observation, informal discussion with supervisors and employees, and practical involvement in daily office

Organizational Overview

AnyScanner

2.1 Background of the Company

Lemon Hive is a global software development and digital solutions company specializing in headless website development, mobile applications, custom software solutions, and MACH (Microservices, API-first, Cloud-native, and Headless) architectures. The company was founded in 2020 by Stuart Tofts and has grown into an international organization with offices in London, Oxford, and Dhaka. The company employs a team of more than 30 specialists dedicated to delivering innovative and high-performance digital solutions for businesses worldwide.

Lemon Hive was established with the vision of solving complex digital challenges through high-quality engineering and modern web technologies. The company focuses on developing scalable, secure, and user-friendly digital platforms that help organizations strengthen their online presence and improve customer experiences. Its expertise includes headless CMS development, e-commerce solutions, website architecture, software engineering, and mobile application development.

Over the years, Lemon Hive has worked with a variety of international brands and organizations, providing customized digital solutions tailored to their business requirements. The company emphasizes engineering excellence, innovation, sustainability, and collaborative problem-solving to ensure long-term value for its clients. Through its advanced technological capabilities and experienced workforce, Lemon Hive continues to expand its presence as a trusted provider of web, app, and software development services.

This background is suitable for inclusion in an internship report, company profile, or academic project.

2.2 Mission, Vision and Core Values of LHC

Mission:

Lemon Hive's mission is to help businesses improve their digital presence through innovative headless websites, mobile applications, and software solutions. The company aims to lead the adoption of MACH (Microservices, API-first, Cloud-native, and Headless) technologies by providing high-quality, future-ready digital solutions that enhance content management, operational efficiency, and user experience. Lemon Hive strives to create the future of web and app development by combining technical expertise, flexibility, and elegant engineering to deliver secure, scalable, and sustainable digital products.

AnyScanner

Mission Statement:

"To empower businesses with innovative, scalable, and future-ready digital solutions through elegant engineering, headless technologies, and custom software development, enabling them to achieve superior digital experiences and sustainable growth."

Vision:

Lemon Hive's vision is to create high-quality, future-ready digital experiences through elegant engineering, helping businesses strengthen their online presence with innovative websites, applications, and software solutions. The company aims to lead the digital transformation of businesses by developing secure, sustainable, accessible, and high-performance technology solutions that combine excellent user experiences with strong technical architecture. Lemon Hive also emphasizes digital sustainability by building low-carbon and environmentally responsible digital products that are designed for long-term success.

Vision Statement:

"To be a global leader in digital engineering and software solutions by empowering ambitious brands with innovative, sustainable, and future-ready websites, applications, and software that deliver exceptional user experiences and long-term business value."

2.3 Objectives of The Lemon Hive Company

Lemon Hive aims to provide innovative and high-quality digital solutions through website development, mobile applications, and custom software engineering. The company focuses on delivering advanced headless and MACH architecture solutions that enhance user experience and business efficiency. Its objective is to help organizations build a strong digital presence by creating secure, scalable, and high-performance platforms that reflect their brand identity. Lemon Hive is also committed to sustainability and accessibility by developing energy-efficient and environmentally responsible digital products. Furthermore, the company strives to serve as a reliable technology partner for businesses and agencies, supporting their digital transformation and long-term growth through expert engineering and continuous innovation.

2.4 Strategies of Lemon Hive Company

Lemon Hive is a software development and digital engineering company specializing in headless websites, mobile applications, e-commerce solutions, and custom software. The company's strategies focus on delivering high-performance digital solutions through advanced technologies and strong engineering practices.

Conclusion

Lemon Hive's strategic focus on advanced digital architecture, innovation, customer-centric development, sustainability, and global collaboration enables the company to deliver high-quality web, app, and software solutions while maintaining long-term business growth and client satisfaction.

2.5 Products and Services of LHC

Lemon Hive is a software development and digital engineering company that specializes in creating websites, mobile applications, software solutions, and headless commerce platforms for businesses worldwide. The company focuses on delivering high-performance, scalable, and user-friendly digital products.

Products

1. **SiteBeacon** – A website monitoring platform that tracks performance, accessibility, and carbon emissions to help organizations improve their digital sustainability.
2. **SiteIQ** – A website benchmarking and comparison tool that analyzes performance, accessibility, and environmental impact against competitors.
3. **Custom Learning Management System (LMS)** – A configurable learning platform designed for organizations to manage training, courses, assessments, and educational content.
4. **Custom Software and SaaS Solutions** – Tailor-made software products developed according to client requirements.

Services

1. **Website Development** – Design and development of modern, high-performance websites using headless CMS technologies.

2. **Mobile App Development** – Development of Android and iOS applications using Flutter and React Native.
   Software Development – Custom software engineering and SaaS product development for businesses.

3. **Headless Commerce Solutions** – Development of advanced e-commerce platforms using Shopify Hydrogen, Centra, Medusa.js, and related technologies.
4. **System Integration Services** – Integration of CRM, ERP, APIs, and third-party business systems.

AnyScanner

5. **Website Maintenance and Support** – Ongoing technical support, updates, security, and performance optimization services.
6. **Agency Partnership Services** – Technical development support for branding, marketing, and web agencies.

2.6 Future Plan for Upgrading Product and Services of LHC

Lemon Hive aims to strengthen its position as a leading software and digital solutions company by continuously upgrading its technologies, services, and operational capabilities. The company plans to expand its expertise in headless website development, mobile application development, custom software solutions, and cloud-based systems. By adopting advanced technologies such as Artificial Intelligence (AI), automation, and modern MACH (Microservices, API-first, Cloud-native, and Headless) architectures, Lemon Hive seeks to deliver more innovative, scalable, and high-performance solutions for clients worldwide. modern digital transformation solutions. digital solutions to meet the evolving needs of businesses worldwide.**

The future plan of Lemon Hive Company is focused on continuous innovation, service improvement, and customer satisfaction. The company aims to upgrade its product and service offerings by adopting advanced technologies such as Artificial Intelligence (AI), cloud computing, and automation tools to develop more efficient websites, mobile applications, and software solutions. Lemon Hive plans to enhance the quality and security of its products through regular updates, testing, and the implementation of modern cybersecurity measures.

In the coming years, the company intends to expand its service portfolio by introducing digital marketing solutions, e-commerce development services, and customized enterprise software for businesses of different sizes. Lemon Hive also plans to strengthen its customer support system by providing faster response times, 24/7 technical assistance, and personalized solutions based on client requirements.

Furthermore, the company aims to invest in employee training and skill development programs to ensure that its workforce remains updated with the latest industry trends and technologies. By expanding into new markets, forming strategic partnerships, and focusing on research and development, Lemon Hive seeks to increase its competitiveness and establish itself as a leading technology solutions provider both nationally and internationally.

Overall, the future plan of Lemon Hive is to deliver innovative, reliable, and high-quality products and services that create greater value for customers and support long-term business growth.

Chapter – Three

Internship Responsibility

AnyScanner

3.1 Internship Responsibility

During my Human Resource Management internship at Lemon Hive Company, I was responsible for supporting various HR functions and administrative activities. My key responsibilities included assisting in the recruitment and selection process by screening CVs, scheduling interviews, and communicating with candidates. I helped maintain employee records, update HR databases, and organize personnel files while ensuring confidentiality. I also assisted with employee onboarding, attendance and leave management, and the preparation of HR-related documents and reports. Additionally, I participated in employee engagement activities, coordinated training sessions, and provided general administrative support to the HR team. This internship enhanced my practical knowledge of HR operations, improved my communication and organizational skills, and provided valuable experience in professional workplace practices.

- Assisted the HR team with daily administrative tasks.
- Supported the recruitment process by reviewing resumes and scheduling interviews.
- Maintained employee records and updated HR databases.
- Helped prepare employment documents, including offer letters and appointment letters.
- Assisted with employee onboarding and orientation for new hires.
- Coordinated interview schedules between candidates and hiring managers.
- Tracked employee attendance and leave records.
- Helped organize employee training sessions and workshops.
- Assisted in maintaining confidentiality of employee information and HR documents.
- Responded to basic employee inquiries regarding HR policies and procedures.
- Supported payroll preparation by organizing attendance and timesheet information.
- Participated in employee engagement activities and company events.
- Assisted in preparing HR reports and documentation.
- Performed data entry and filing of HR-related documents.
- Completed other HR and administrative tasks assigned by the HR supervisor.

3.2 Skills Gained

During my Human Resource Management internship at Lemon Hive Company, I gained practical experience in various HR activities, including recruitment and selection, employee record management, attendance monitoring, onboarding, maintaining HR documentation, and supporting employee communication. I also assisted with coordinating interviews, preparing HR-related documents, and handling routine administrative tasks. Through these responsibilities, I developed important skills such as communication, teamwork, time management, problem-solving, organizational skills, and professional behavior. The internship also enhanced my understanding of workplace policies, employee relations, recruitment procedures, and the overall functions of Human Resource Management.

SCAN AnyScanner

These responsibilities are suitable for an internship report, resume, or LinkedIn profile. If you need them tailored specifically to **Lemon Hive's actual HR internship program**, I can also help draft a version based on the company's role description.

the Lemon Hive HR Department, I gained valuable practical knowledge about Human Resource Management. I learned how HR professionals manage employee recruitment, selection, onboarding, attendance, leave management, and employee records. I also learned the importance of effective communication, teamwork, confidentiality, and professional behavior in the workplace. The internship helped me understand how HR policies and procedures are applied in real organizational situations. I developed skills in maintaining HR documents, coordinating with employees, supporting recruitment.

3.3 Things I Have Learned from the Lemon Hive HR Department

During my internship at activities, and handling workplace responsibilities. Overall, my experience at Lemon Hive improved my understanding of HR practices and increased my confidence, communication skills, and ability to work in a professional environment. The internship helped me improve my communication, teamwork, time-management, problem-solving, and organizational skills. I observed how HR professionals communicate with employees, resolve workplace issues, and maintain a positive working environment. I also learned the importance of professionalism, discipline, ethical behavior, and maintaining good relationships among employees. Overall, my experience at Lemon Hive gave me practical exposure to HR functions and helped me connect my academic knowledge with real workplace practices.

3.4 Observation

During my internship at Lemon Hive, I observed a professional, collaborative, and supportive working environment. The company places importance on teamwork, effective communication, employee development, and maintaining a healthy workplace culture.

From my experience, I found that employees are encouraged to share ideas, take responsibility for their work, and cooperate with colleagues to achieve organizational goals. I also observed that the HR department plays an important role in recruitment, employee communication, maintaining workplace discipline, and supporting employee development. The internship provided me with practical knowledge about how HR activities are performed in a real organization.

Overall, my internship at Lemon Hive was a valuable learning experience. It helped me connect theoretical knowledge of Human Resource Management with practical workplace activities and improved my communication, teamwork, organizational, and professional skills. I believe the experience will be helpful for my future career in Human Resource Management.

SCAN AnyScanner

3.5 Recommendation

Based on my internship experience at Lemon Hive, I would recommend continuing the internship program because it provides students with valuable practical exposure to a professional work environment. The company can further improve the internship experience by providing interns with a structured orientation program, clearly defined responsibilities, and regular feedback from supervisors. Interns should also be given more opportunities to participate in real HR activities such as recruitment and selection, employee engagement, training and development, performance management, and HR documentation. Regular knowledge-sharing sessions and mentoring could help interns develop their professional and communication skills more effectively. Finally, assigning interns a specific project and evaluating their performance at the end of the internship would help them understand their progress and identify areas for improvement. Overall, Lemon Hive can continue strengthening its internship program by combining practical responsibilities, mentorship, feedback, and career-development opportunities.

Chapter – Four

Analysis of the LEMON HIVE COMPANY

AnyScanner

4.1 Human Resource Management Practice of the Lemon Hive Company

1. Recruitment and Selection

Lemon Hive follows a structured recruitment and selection process to attract qualified candidates. The company uses online job portals, social media platforms, employee referrals, and professional networks to recruit skilled employees. Candidates are selected through screening, interviews, and skill assessments.

2. Training and Development

The company provides training programs to improve employees' technical and professional skills. New employees receive orientation training, while existing employees participate in workshops, seminars, and skill-development sessions to enhance their performance.

3. Performance Management

Lemon Hive evaluates employee performance regularly through performance appraisal systems. Employees receive feedback from supervisors regarding their achievements, strengths, and areas for improvement. This helps maintain high productivity and service quality.

4. Compensation and Benefits

The company offers competitive salaries and benefits to motivate employees. Compensation packages may include bonuses, incentives, paid leave, and other benefits based on performance and organizational policies.

5. Employee Relations

Lemon Hive promotes positive relationships between management and employees. Open communication, teamwork, and employee engagement activities help create a healthy and productive work environment.

6. Career Development

The company encourages employees to develop their careers through promotion opportunities, leadership development programs, and continuous learning initiatives.

SCAN AnyScanner

7. Workplace Health and Safety

Lemon Hive maintains a safe and supportive work environment by ensuring proper workplace facilities, employee well-being, and compliance with organizational policies and regulations.

8. Employee Retention Strategies

The company focuses on retaining talented employees through recognition programs, career growth opportunities, competitive compensation, and a positive organizational culture.

4.4.1 Recruitment Policy of LHC

The recruitment policy of **Lemon Hive** is designed to attract, select, and retain talented professionals who can contribute to the company's growth and innovation in web development and software solutions. Based on the company's recent job advertisements and hiring practices, the recruitment policy includes the following aspects:

1. Equal Employment Opportunity

All applicants are given equal consideration regardless of gender, religion, race, or background.

Recruitment decisions are based on qualifications, skills, experience, and job suitability.

2. Merit-Based Selection

Candidates are selected according to their technical expertise, professional experience, problem-solving ability, and communication skills.

For some technical positions, proven work experience is valued more than formal educational qualifications.

3. Job Advertisement and Sourcing

Vacancies are announced through online job portals, LinkedIn, company career pages, and professional networks.

SCAN AnyScanner

Applications are collected from interested candidates through online submission systems.

4. **Screening and Shortlisting**

The HR department reviews applications and shortlists candidates based on job requirements.

Relevant experience, technical skills, and cultural fit are considered during screening.

5. **Assessment and Interview**

Shortlisted candidates participate in interviews, technical assessments, or practical tests.

Interviews may involve HR personnel, department heads, and technical experts to evaluate competency and suitability.

6. **Selection and Appointment**

The best-qualified candidate is selected after evaluating interview performance and assessment results.

A formal offer letter is issued outlining salary, benefits, working hours, and employment conditions.

7. **Onboarding and Orientation**

Newly recruited employees receive orientation and training to familiarize them with company policies, culture, and job responsibilities.

Employees are encouraged to collaborate, innovate, and maintain high professional standards.

4.4.2 Training and Development Program of LHC

The Training and Development Program of Lemon Hive is designed to improve employees' knowledge, skills, and competencies so that they can perform effectively in a rapidly changing technology environment. As a software and digital solutions company, Lemon Hive focuses on continuous learning and professional growth for its workforce.

SCAN AnyScanner

Objectives of the Training and Development Program

1. Enhance employees' technical and professional skills.
2. Improve productivity and work quality.
3. Prepare employees for future leadership roles.
4. Support innovation and adaptation to new technologies.
5. Increase employee motivation and job satisfaction.

Types of Training Programs

- **Orientation Training:** Introduces new employees to company policies, culture, and work procedures.
- **Technical Skills Training:** Covers software development, web development, app development, cloud technologies, and emerging digital tools.
- **Soft Skills Training:** Focuses on communication, teamwork, problem-solving, and time management.
- **Leadership Development:** Prepares employees for managerial and supervisory responsibilities.
- **On-the-Job Training:** Employees learn through practical work experience under the guidance of senior professionals.
- **Workshops and Seminars:** Regular sessions conducted by industry experts to update employees on current trends and technologies.

Training Methods

- Classroom and online training sessions.
- Hands-on project-based learning.
- Mentoring and coaching programs.
- Webinars and professional certification courses.
- Knowledge-sharing meetings among team members.

Benefits of the Program

- Improved employee performance and efficiency.
- Better customer service and project outcomes.
- Higher employee retention and engagement.
- Development of future leaders within the organization.
- Increased organizational competitiveness and innovation.

SCAN AnyScanner

4.4.3 Compensation Administration of LHC

Compensation Administration refers to the process of designing, implementing, and managing employee salaries, wages, incentives, and benefits to ensure fair and competitive remuneration.

Objectives of Compensation Administration at LHC

- Attract qualified and talented employees.
- Retain skilled employees by offering competitive compensation.
- Motivate employees to improve performance and productivity.
- Ensure internal and external pay equity.
- Comply with labor laws and company policies.

Components of Compensation Administration of LHC

1. Basic Salary

Employees receive a fixed monthly salary based on their job position, responsibilities, qualifications, and experience.

2. Allowances

LHC may provide various allowances, such as:

- House rent allowance
- Medical allowance
- Transportation allowance
- Mobile/communication allowance

3. Performance-Based Incentives

Employees who achieve or exceed performance targets may receive:

- Performance bonuses
- Sales commissions
- Special achievement awards

4. Employee Benefits

LHC may offer benefits including:

SCAN AnyScanner

- Paid annual leave
- Sick leave and casual leave
- Festival bonuses
- Health and medical support
- Training and development opportunities
-

5. Overtime Compensation

Employees working beyond regular office hours may receive overtime pay according to company policy and labor regulations.

6. Salary Review and Increment

Salary reviews are generally conducted annually based on:

- Employee performance
- Skills and competencies
- Market salary trends
- Company profitability

Compensation Administration Process

1. Job analysis and evaluation.
2. Salary structure development.
3. Performance appraisal.
4. Determination of compensation and benefits.
5. Payroll processing and salary disbursement.
6. Regular review and adjustment of compensation packages.

4.4.4 Promotional Practices of LHC

Promotion at LHC is generally based on employee performance, skills, experience, and contribution to organizational goals. The company follows a merit-based approach to ensure fairness and motivate employees.

Key Promotional Practices

1. **Performance Evaluation**

Employees are assessed through regular performance appraisals.

SCAN AnyScanner

High-performing employees are considered for promotion opportunities.

2. **Merit-Based Promotion**

Promotions are awarded based on achievements, competencies, and work quality rather than seniority alone.

3. **Training and Development**

Employees who successfully complete training programs and develop new skills are given preference for higher positions.

4. **Internal Recruitment**

Vacant higher-level positions are often filled by qualified internal employees before external hiring.

5. **Career Growth Opportunities**

LHC encourages employees to take on greater responsibilities and leadership roles as part of their career progression.

6. **Management Review**

Department heads and HR evaluate employees' readiness for promotion based on performance records and organizational needs.

Objectives of Promotional Practices

- Increase employee motivation and job satisfaction.
- Retain talented employees.
- Reward outstanding performance.
- Develop future leaders within the organization.
- Enhance organizational productivity and efficiency.

4.4.5 Performance Appraisal Policies

Performance appraisal policies are the guidelines and procedures used by an organization to evaluate employee performance, provide feedback, and support

SCAN AnyScanner

employee development. These policies ensure fairness, consistency, and transparency in assessing employee contributions.

Key Features of Performance Appraisal Policies

1. **Regular Performance Evaluation**

Employees are evaluated at specific intervals, such as annually, semi-annually, or quarterly.

Performance is measured against predefined goals and job responsibilities.

2. **Objective Assessment Criteria**

Appraisals are based on measurable performance indicators, job knowledge, productivity, quality of work, attendance, teamwork, and behavior.

3. **Performance Feedback**

Supervisors provide constructive feedback to employees regarding their strengths and areas for improvement.

Employees are encouraged to discuss their performance and career aspirations.

4. **Employee Development**

Appraisal results are used to identify training and development needs.

Organizations may create development plans to improve employee skills and competencies.

5. **Link to Rewards and Promotions**

Performance ratings may influence salary increments, bonuses, promotions, and recognition programs.

6. **Documentation and Record Keeping**

All appraisal results are documented and maintained in employee records for future reference.

SCAN AnyScanner

7. **Fairness and Non-Discrimination**

The appraisal process should be free from bias and discrimination. Employees should be evaluated based on their actual performance and achievements.

8. **Appeal Process**

Employees may have the opportunity to appeal or discuss appraisal results if they believe the evaluation is unfair.

Objectives of Performance Appraisal Policies

- Measure employee performance effectively.
- Improve productivity and efficiency.
- Identify employee strengths and weaknesses.
- Support career growth and succession planning.
- Enhance communication between employees and management.
- Provide a basis for compensation and promotion decisions.

Job Evaluation: **Job Evaluation** is a systematic process used to determine the relative worth or value of different jobs within an organization. It helps establish a fair and equitable pay structure by comparing jobs based on factors such as skills, responsibilities, effort, and working conditions.

Objectives of Job Evaluation

- Determine the relative value of jobs.
- Ensure fair and equitable compensation.
- Develop a rational wage and salary structure.
- Reduce pay inequalities and discrimination.
- Assist in recruitment, promotion, and performance management.

Importance of Job Evaluation

- Promotes internal equity among employees.
- Improves employee satisfaction and motivation.
- Supports effective compensation administration.
- Helps organizations comply with labor laws and regulations.
- Facilitates workforce planning and career development.

SCAN AnyScanner

Methods of Job Evaluation

1. Non-Quantitative Methods

- **Ranking Method:** Jobs are ranked from highest to lowest based on overall importance.
- **Job Classification Method:** Jobs are grouped into predefined grades or classes.

2. Quantitative Methods

- **Point Rating Method:** Jobs are evaluated based on specific factors and assigned points.
- **Factor Comparison Method:** Jobs are compared using compensable factors such as skill, effort, responsibility, and working conditions.

Steps in Job Evaluation

1. Conduct job analysis.
2. Prepare job descriptions and specifications.
3. Select a job evaluation method.
4. Evaluate and compare jobs.
5. Establish job hierarchy and pay structure.
6. Review and update evaluations periodically.

4.2 Recruitment and Selection Process of Lemon Hive Company

1. Workforce Planning

Lemon Hive first identifies hiring needs based on project demands, business expansion, or employee vacancies. Department managers submit recruitment requests to the HR department, specifying the required qualifications and experience.

2. Job Analysis and Job Description

The HR team prepares a detailed job description that includes:

- Job title
- Roles and responsibilities
- Required qualifications

AnyScanner

- Skills and experience
- Salary (if disclosed)
- Work location and working hours
-

For example, Lemon Hive's Product Designer and Full Stack Engineer vacancies clearly specify experience requirements, technical skills, and responsibilities.

3. Recruitment Sources

Lemon Hive attracts candidates through several channels, including:

- LinkedIn job postings
- Company career announcements
- Professional networking
- Employee referrals
- Online job portals

Most recent recruitment campaigns have been advertised through LinkedIn and the company's careers page.

4. Application Collection

Interested candidates submit:

- Updated CV/Resume
- Portfolio (for design roles)
- Cover letter (where applicable)

Applications are reviewed by the HR department before moving to the next stage.

5. Initial Screening

HR conducts an initial screening to evaluate:

- Educational qualifications
- Relevant work experience
- Technical skills
- Communication ability
- Eligibility for the position

Applicants who meet the minimum requirements are shortlisted for interviews.

AnyScanner

6. Technical Assessment

For technical positions such as software developers or designers, candidates may complete:

- Coding tests
- Technical interviews
- Portfolio reviews
- Practical design or programming tasks

These assessments evaluate candidates' practical knowledge and problem-solving abilities.

7. Interview Process

The interview process generally includes:

- HR Interview
- Technical Interview
- Final Interview with department heads or senior management

Interviewers assess:

- Technical competency
- Communication skills
- Teamwork
- Problem-solving ability
- Cultural fit

8. Background and Reference Verification

Before making a final hiring decision, Lemon Hive may verify:

- Employment history
- Educational qualifications
- Professional references
- Identity and other relevant documents

The company also outlines how applicant data is handled during recruitment.

SCAN AnyScanner

9. Final Selection

The best-qualified candidate is selected based on:

- Interview performance
- Technical assessment results
- Skills and experience
- Overall suitability for the role

The selected candidate receives a formal job offer.

10. Job Offer and Onboarding

After the candidate accepts the offer:

- Employment documents are completed.
- Orientation is conducted.
- Company policies and procedures are explained.
- The employee is introduced to their team and assigned responsibilities.

.3 Training and Development Practices of Lemon Hive

Continuous Technical Learning

- Lemon Hive encourages employees to continuously improve their technical skills in modern web development, headless CMS, mobile applications, cloud technologies, and software engineering.
- Team members work with advanced technologies, allowing them to learn through real client projects.

Learning Through Real Projects

- Employees gain practical experience by working on projects for well-known organizations such as the University of Oxford, Toyota, Honda, and Renault.
- This project-based learning helps employees develop technical expertise, problem-solving abilities, and client management skills.

SCAN AnyScanner

3. Knowledge Sharing

- The company promotes collaboration among developers, designers, and project managers.
- Team members share technical knowledge, best practices, and innovative solutions to improve project quality and individual skills.

4. Learning Management System (LMS) Development

- Lemon Hive has developed its own configurable Learning Management System (LMS), demonstrating its expertise in digital learning technologies.
- The LMS supports video learning, secure examinations, and web, mobile, and desktop learning experiences, indicating the company's focus on modern digital training solutions.

5. Professional Development

- Employees are encouraged to stay updated with emerging technologies, accessibility standards, website performance optimization, and sustainable software development practices.
- Working with innovative internal products such as SiteBeacon and SiteIQ also provides opportunities for continuous professional growth.

Objectives of Training and Development

- Improve technical and engineering skills.
- Enhance innovation and problem-solving capabilities.
- Support continuous learning and career growth.
- Maintain high-quality software development standards.
- Deliver better client solutions through updated technical knowledge.

4.4 Recruitment practices of the lemon hive company

1. Clear job descriptions

Vacancies typically include:

- Job responsibilities
- Required technical skills
- Preferred qualifications
- Experience requirements

SCAN AnyScanner

- Salary range (for some positions)
- Benefits and working hours

This helps candidates understand expectations before applying.

2. **Online application process**

Candidates are generally asked to submit:

- CV/Resume
- Portfolio (for design roles)
- Sometimes a cover letter or application form

Applications are promoted primarily through LinkedIn and other online job platforms.

3. **Experience-based screening**

Lemon Hive screens applicants against the stated experience requirements.

For example:

- Product Designer: typically 3–5 years of experience.
- Full Stack Engineer: around 1 year of experience.

4. **Technical competency assessment**

Job advertisements emphasize practical skills such as:

- JavaScript/TypeScript
- NestJS
- PostgreSQL
- Figma
- Responsive UI/UX
- API development
- Agile development practices

Candidates are expected to demonstrate these competencies during the selection process.

SCAN AnyScanner

5. **Interview process**

Although the company has not publicly described each stage, applicants can generally expect interviews that assess:

- Technical knowledge
- Problem-solving ability
- Communication skills
- Fit with the company's collaborative work culture.

6. **Emphasis on learning and collaboration**

Lemon Hive highlights:

- Knowledge-sharing sessions
- Training opportunities
- Freedom to express ideas
- Collaborative work environment

This suggests they value continuous learning alongside technical ability.

Employee benefits highlighted in recruitment

Recent job postings mention benefits such as:

- Five-day work week
- Flexible working hours
- Quarterly performance bonuses (policy-based)
- Two festival bonuses (policy-based)
- Twice-yearly salary review (policy-based)
- Lunch provided
- Tea, coffee, and snacks
- Training and skill development sessions
- Friendly and creative workplace
- On-time salary payments

Qualities Lemon Hive appears to value

From its recruitment advertisements, successful candidates are expected to demonstrate:

- Strong technical expertise

SCAN AnyScanner

- Problem-solving ability
- Attention to detail
- Effective communication
- Teamwork and collaboration
- Willingness to learn and adapt
- Ability to work in an agile software development environment

Overall, Lemon Hive's recruitment approach appears to follow common software industry practices: advertising detailed job requirements, screening for relevant experience and technical skills, conducting interviews to assess both competence and team fit, and offering professional development opportunities to attract and retain talent.

4.5 Onboarding of the lemon hive company

Welcome and Company Introduction

- Introduction to Lemon Hive's mission, values, and engineering-first approach.
- Overview of the company's history, leadership, and offices in London, Oxford, and Dhaka.

2. HR and Administrative Setup

- Completion of employment documents.
- Account creation for company systems.
- Distribution of company policies and employee handbook.

3. Workstation and Tool Access

New employees receive access to:

- Email and communication platforms.
- Project management tools.
- Development environments and repositories.
- Internal documentation and knowledge bases.

4. Team Introduction

- Meet your manager and teammates.
- Learn each team member's responsibilities.

SCAN AnyScanner

- Understand reporting lines and communication practices.

5. Technical Onboarding

For technical roles, onboarding typically includes:

- Development environment setup.
- Access to code repositories.
- Coding standards and best practices.
- Overview of ongoing projects and system architecture.

6. Training Period

Employees are introduced to:

- Company workflows.
- Quality standards.
- Security practices.
- Agile development processes.
- Client communication expectations.

7. Mentorship

A senior developer or team lead may guide new hires during the first few weeks by:

- Answering technical questions.
- Reviewing code.
- Providing feedback on tasks.
- Helping the employee become productive.

8. First Assignments

New employees usually begin with:

- Small bug fixes.
- Minor feature implementations.
- Documentation tasks.
- Gradually increasing project responsibilities.

SCAN AnyScanner

9. Performance Check-ins

Managers typically conduct regular check-ins during the first few months to:

- *Review progress.*
- *Address challenges.*
- *Set short-term goals.*
- *Gather feedback about the onboarding experience.*

According to Lemon Hive, the company values **in-person collaboration**, *maintains a* **single integrated team across its offices**, and focuses on **high-quality engineering, digital architecture, and long-term technical excellence** rather than purely code generation.

4.6 Development of Lemon Hive

Lemon Hive is a software development and digital engineering company specializing in **headless websites, mobile applications, software solutions, and composable commerce**. The company focuses on building high-performance, scalable digital platforms for businesses.

Key stages of its development:

- **Foundation:** Lemon Hive was founded in **2020** by Stuart Tofts in London, United Kingdom, although the company describes its engineering experience as spanning more than seven years through its founders and team.
- **Business growth:** It expanded from a small specialist team into an organization of **30+ professionals**, with offices in **London, Oxford, and Dhaka**.
- **Service expansion:** The company evolved from web development into providing:

Headless website development

Shopify and composable commerce solutions

Custom software engineering

Mobile app development

API and enterprise system integrations

SCAN AnyScanner

Technology focus: Lemon Hive works with modern technologies such as **Next.js, Shopify Hydrogen, Sanity CMS, Payload CMS, Flutter, Node.js, Python, and Rust** to create fast, secure, and flexible digital platforms.

International presence: The company serves clients globally and has completed projects for organizations including the **University of Oxford, Toyota, Honda, Renault**, and **brightonSEO**.

Innovation: Lemon Hive also developed **SiteBeacon**, its own platform for monitoring website performance, accessibility, and carbon emissions, reflecting its focus on sustainable digital engineering.

4.7 Offboarding of the Lemon Hive

1. **Resignation or termination confirmation** – The employee's last working day is finalized.
2. **Knowledge transfer** – Ongoing projects, documentation, and responsibilities are handed over to teammates.
3. **Return of company assets** – Laptops, ID cards, access cards, and other company property are returned.
4. **Access revocation** – Access to email, internal systems, and company accounts is disabled after departure.
5. **Final payroll and benefits** – Final salary, unused leave (if applicable), reimbursements, and other benefits are processed according to company policy and local labor laws.
6. **Exit interview** – The company may conduct an interview to gather feedback about the employee's experience.
7. **Documentation** – Experience letters, relieving letters, tax documents, or other separation documents are issued if applicable.

you meant something more specific, such as:

- Lemon Hive's official offboarding policy,
- the notice period,
- final settlement timeline,
- exit interview process, or
- documentation provided after leaving,

Chapter- Five

Findings

AnyScanner

Findings

ed on the analysis of Lemon Hive Company's human resource management practices, the lowing major findings were identified:

1. Structured Recruitment and Selection Lemon Hive follows a systematic recruitment process involving workforce planning, job analysis, online job advertisements, application screening, technical assessments, interviews, and final selection. The company places strong emphasis on technical skills, relevant experience, problem-solving ability, communication, and cultural fit.
2. Strong Focus on Technical Competence As a software and digital engineering company, Lemon Hive gives considerable importance to technical expertise. Skills related to web development, software engineering, UI/UX, APIs, cloud technologies, and modern development frameworks are important considerations in recruitment and employee development.
3. Continuous Training and Development The company emphasizes continuous learning through technical training, on-the-job learning, mentoring, knowledge-sharing, workshops, seminars, and project-based experience. Employees have opportunities to develop both technical and soft skills.
4. Learning Through Real Projects Employees can strengthen their professional capabilities by working on real-world projects and with international clients. This provides practical exposure to software development, problem-solving, client requirements, teamwork, and project management.
5. Performance-Oriented Management Lemon Hive uses performance appraisal to evaluate employee contributions, identify strengths and weaknesses, provide feedback, and support development. Performance can also influence compensation, incentives, and promotion decisions.
6. Competitive Compensation and Benefits The company attempts to attract and retain employees through salaries, performance-based incentives, bonuses, leave, training opportunities, and other workplace benefits. Recruitment information also indicates benefits such as flexible working arrangements, performance bonuses, festival bonuses, salary reviews, and workplace facilities.
7. Career Growth Opportunities Lemon Hive provides opportunities for career progression through skill development, internal recruitment, increased responsibilities, leadership development, and promotion based on performance and organizational requirements.
8. Systematic Onboarding Practices The onboarding process covers organizational introduction, administrative formalities, system and tool access, team introduction, technical setup, training, mentorship, initial assignments, and performance check-ins. This helps new employees become familiar with the company and their responsibilities.

AnyScanner

9. Importance of Employee Retention Lemon Hive's HR practices indicate an effort to retain talented employees through competitive compensation, recognition, career development, training, a positive work environment, and opportunities to work on challenging projects.
10. Job Evaluation Supports Internal Equity Job evaluation provides a basis for determining the relative value of different positions by considering factors such as skills, responsibilities, effort, and working conditions. This can support a fair and rational compensation structure. Emphasis on Innovation and Adaptability
11. Continuous development is particularly important because Lemon Hive operates in a rapidly changing technology environment. Employees are encouraged to learn emerging technologies and adapt to new software development practices and digital trends.

Overall Finding

Overall, Lemon Hive appears to have an integrated and employee-oriented HRM approach that connects recruitment, training, performance appraisal, compensation, promotion, career development, onboarding, retention, and offboarding. Its HR practices are particularly aligned with the needs of a technology-driven organization, where technical competence, continuous learning, teamwork, innovation, and adaptability are essential for organizational success.

In conclusion, the report indicates that Lemon Hive's human resource management practices contribute to attracting qualified employees, developing employee capabilities, motivating performance, supporting career growth, and retaining skilled talent. The combination of merit-based selection, continuous learning, performance management, competitive benefits, and a collaborative work culture provides a strong foundation for achieving the company's long-term organizational and business objectives.

Chapter- Six
Recommendation & Conclusion

AnyScanner

Recommendations

1. The HR Department should provide regular training and development opportunities for employees and interns to improve their knowledge of recruitment, employee relations, HR policies, and workplace practices.
2. Lemon Hive should continue to encourage clear and professional communication between HR, employees, and managers. Regular meetings and feedback sessions could help ensure that workplace concerns are identified and addressed effectively.
3. The organization should maintain a clear and consistent recruitment process to ensure that candidates are assessed fairly and efficiently. Using standard interview questions and evaluation criteria could help improve the selection process.
4. HR should continue to emphasise the importance of confidentiality when handling employee information and records. Regular reminders or training on data privacy and information security would help protect sensitive employee information.
5. The HR Department should maintain accurate and well-organised employee records. Where possible, digital HR systems can be used to make record keeping more efficient, secure, and easier to access when required.
6. HR should continue to promote teamwork among employees and departments. Sharing responsibilities, supporting colleagues, and communicating effectively can contribute to a more positive and productive working environment.
7. Employees and interns sworkplace encouraged to develop their professional skills through workshops, mentoring, training, and practical responsibilities. This can improve confidence, problem-solving abilities, and overall job performance.
8. Lemon Hive could regularly collect feedback from employees about workplace experiences, HR services, and organisational policies. This would help HR identify areas for improvement and respond to employee needs more effectively.
9. HR policies and procedures should be reviewed and updated regularly to ensure they remain relevant, clear, and consistent with organisational needs and applicable workplace requirements.
10. For interns and new HR staff, providing hands-on experience with recruitment, documentation, employee relations, and HR systems can help develop practical skills and prepare them for future professional roles.

SCAN AnyScanner

Overall, Lemon Hive should continue to invest in effective HR practices, employee development, communication, and professional training. Providing a supportive environment with clear policies, good communication, confidentiality, and opportunities for practical learning will help strengthen the HR Department and contribute to a positive workplace culture.

6.2 Conclusion

Human Resource Management plays a vital role in the success of every organization by ensuring that the right people are recruited, trained, motivated, and retained. Effective HRM improves employee performance, enhances job satisfaction, and helps achieve organizational goals. By managing human resources efficiently, organizations can build a positive work environment, increase productivity, and maintain a competitive advantage. In today's dynamic business environment, HRM is not only responsible for administrative functions but also serves as a strategic partner in driving organizational growth and long-term success. Human Resource Management (HRM) is one of the most important functions in any organization because it focuses on managing and developing people, who are the organization's most valuable asset. Effective HRM ensures that the right employees are recruited, trained, motivated, and retained. It also helps create a positive work environment, improves employee performance, and supports organizational success. By aligning employee goals with organizational objectives, HRM increases productivity, strengthens teamwork, and enhances overall efficiency. In today's competitive and rapidly changing business world, Human Resource Management plays a strategic role in achieving sustainable growth and long-term success. Therefore, effective HRM is essential for both employee satisfaction and organizational development
